

CHILD PROTECTION POLICY

Ratified by the Board of Governors: _____

1. CHILD PROTECTION ETHOS

We in St Mary's have a responsibility for the Pastoral Care, general welfare and safety of the children in our care and we will carry out this duty by providing a caring, supportive and safe environment, where each child is valued for his or her unique talents and abilities, and in which all our young people can learn and develop to their full potential. All staff, teaching and non-teaching, should be alert to the signs of possible abuse and should know the procedures to be followed. This Policy sets out guidance on the action, which is required where abuse or neglect of a child is suspected and outlines referral procedures within our school

2. PRINCIPLES

The general principles, which underpin our work, are those set out in the UN Convention on the Rights of the Child and are enshrined in the Children (Northern Ireland) Order 1995, the Department of Education (Northern Ireland) guidance "Pastoral Care in Schools- Child Protection"(DENI Circular 99/10) and the Area Child Protection Committees' Regional Policy and Procedures(2005).

The following principles form the basis of our Child Protection Policy.

- It is a child's right to feel safe at all times, to be heard, listened to and taken seriously.
- We have a pastoral responsibility towards the children in our care and should take all reasonable steps to ensure their welfare is safeguarded and their safety is preserved.
- In any incident the child's welfare must be paramount, this overrides all other considerations.
- A proper balance must be struck between protecting children and respecting the rights and needs of parents and families; but where there is conflict the child's interest must always come first.

3. OTHER RELEVANT POLICIES

The school has a duty to ensure that safeguarding permeates all activities and functions. This policy therefore complements and supports a range of other school policies including:

6. WHAT IS CHILD ABUSE?

The following definitions of child abuse are taken from the Area Child Protection Committees' Regional Policy and Procedures (2005).

6.1 Definition of Abuse

Child abuse occurs when a child is neglected, harmed or not provided with proper care. Children may be abused in many settings, in a family, in an institutional or community setting, by those known to them or more rarely, by a stranger. There are different types of abuse and a child may suffer more than one of them. The procedures outlined in this document are intended to safeguard children who are at risk of significant harm because of abuse or neglect by a parent, carer or other with a duty of care towards a child.

6.2 Types of Abuse

Neglect is the persistent failure to meet a child's physical, emotional and/or psychological needs, likely to result in significant harm. It may involve a parent or carer failing to provide adequate food, shelter and clothing, failing to protect a child from physical harm or danger, failing to ensure access to appropriate medical care or treatment, lack of stimulation or lack of supervision. It may also include non-organic failure to thrive (faltering growth).

Physical Abuse is the deliberate physical injury to a child, or the wilful or neglectful failure to prevent physical injury or suffering. This may include hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, confinement to a room or cot, or inappropriately giving drugs to control behaviour.

Emotional Abuse is the persistent emotional ill-treatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that he is worthless or unloved, inadequate, or valued only insofar as he meets the needs of the other person. It may involve causing a child to frequently feel frightened or in danger, or the exploitation or corruption of a child. Some level of emotional abuse is involved in all types of ill-treatment of a child, though it may occur alone. Domestic violence, adult mental health problems and parental substance misuse may expose a child to emotional abuse.

Sexual Abuse involves forcing or enticing a child to take part in sexual activities. The activities may involve physical contact, including penetrative or non-penetrative acts. They may include non-contact activities, such as involving children in looking at, or in the production of, pornographic material or watching sexual activities, or encouraging children to behave in sexually inappropriate ways.

A child may suffer or be at risk of suffering from one or more types of abuse and abuse may take place on a single occasion or may occur repeatedly over time.

6.3 Signs and symptoms of abuse (these are outlined in Appendix 1)

7. PROCEDURES FOR MAKING COMPLAINTS IN RELATION TO CHILD ABUSE

7.1 How a Parent can Make a Complaint

At St Mary's we aim to work closely with the parents/guardians in supporting all aspects of the child's development and well-being. Any concerns a parent may have will be taken seriously and dealt with in a professional manner. If a parent has a concern they can talk to the class teacher or the Principal/Designated teacher for child protection. If they are still concerned they may talk to the Chair of the Board of Governors. At any time a parent may talk to a social worker in the local Gateway team or to the PSNI Public Protection Unit. Details of who to contact are shown in the flowchart in Appendix 2.

7.2 Where the school has concerns or has been given information about possible abuse by someone other than a member of the school staff

Where staff become aware of concerns or are approached by a child they should not investigate – this is a matter for the Social Services – but should report these concerns immediately to the designated teacher, discuss the matter with her and make full notes. These notes or records should be factual, objective nature and include what was seen, said, heard or reported, the place and time of who was present and should be given to the designated teacher. The person who reports the incident must treat the matter in confidence.

The designated teacher will decide whether in the best interest of the child the matter needs to be referred to the Social Services. If there are concerns that the child may be at risk, the school is obliged to make a referral. Unless there are concerns that a parent may be the possible abuser, the parent will be informed immediately.

The designated teacher may need to seek discreet preliminary clarification from the person making the complaint or giving the information or from others who may have relevant information. The designated teacher may also consult with the Western Education & Library Board's designated officer for child protection or Social Services (Gateway Team) before a referral is made. No decision to refer a case to Social Services will be made without the fullest consideration and on appropriate advice. The safety of the child is our prime priority.

If there are concerns that the child or young person may be at risk, the designated teacher is obliged to make a referral. Unless there are concerns that a parent may be the possible abuser, the parents will be informed immediately.

Where there are concerns about possible abuse and a referral needs to be made the designated teacher will telephone the Western Health & Social Services Gateway Team. She will also notify the Western Education & Library Board's designated officer for child protection. A UNOCINI (Understanding the Needs of Children in Northern Ireland) referral form will also be completed and forwarded to

the Gateway team with a copy sent to the WELB designated officer for child protection.

This procedure with names and contact numbers is shown in Appendix 3.

The following are guidelines for use by staff should a child disclose concerns of a child protection nature.

Do's	Don'ts
<p>Do listen to what the child says.</p> <p>Do assure the child they are not at fault.</p> <p>Do explain to the child that you cannot keep it a secret.</p> <p>Do document exactly what the child says, using his/her exact words.</p> <p>Do remember not to promise the child confidentiality.</p>	<p>Don't ask leading questions.</p> <p>Don't put words into the child's mouth.</p> <p>Don't ignore the child's behaviour.</p> <p>Don't remove any clothing.</p>

Do's	Don'ts
<ul style="list-style-type: none"> • Stay calm • Listen • Accept • Reassure • Explain what you are going to do • Record accurately • Seek support for yourself 	<ul style="list-style-type: none"> • Panic • Promise to keep secrets • Ask leading questions • Make the child repeat the story unnecessarily • Delay • Start to investigate • Do Nothing

7.3 Where a complaint has been made about possible abuse by a member of the school's staff

If a complaint about possible child abuse is made against a member of staff, the Principal/Designated teacher (or the deputy designated teacher if she is not available) must be informed immediately. The above procedures will apply (unless the complaint is about the Principal/Designated teacher)

If a complaint is made against the Principal/Designated teacher the Chairperson of The Board of Governors will be informed and he/she will ensure that necessary action is taken.

Where the matter is referred to the Social Services the member of staff may be removed from duties involving direct contact with pupils (and may be suspended from duty as a precautionary measure pending investigation by the appropriate authorities). The Chairman of the Board of Governors will also be informed immediately.

Where an allegation is made against a member of staff and is pursued either as a formal referral or under the education establishment's disciplinary procedures, a summary is entered on a Record of Abuse Complaints. This entry which will contain details of the complaint, will be made available to the Board of Governors /Management Committee at least annually.

This procedure with names and contact numbers is shown in Appendix 4.

7.4 Where a complaint has been made about possible abuse by a volunteer

Any complaint about the conduct of a person working in the school in a voluntary capacity should be treated in the same manner as complaints against a person who is not on the school's staff, and the above procedures followed. If the Principal has any concern that a child may be at risk, the services of the volunteer should be terminated immediately.

8. ATTENDANCE AT CHILD PROTECTION CASE CONFERENCES AND CORE GROUP MEETINGS

The Designated Teacher/Deputy Designated teacher or Principal may be invited to attend an initial and review child protection Case Conferences or core group meeting convened by the Western Health & Social Care Trust and where possible a school representative will be in attendance. A written report will be provided for these meetings and will be compiled after discussion with relevant staff. Feedback will be given to staff under the 'need to know' principle on a case-by-case basis. Children whose names are on the Child Protection register will be monitored in line with what has been agreed in each child's protection plan;

9. CONFIDENTIALITY AND INFORMATION SHARING

Information given to members of staff about possible child abuse cannot be held “in confidence”. In the interests of the child, staff have a responsibility to share relevant information about the protection of children with other professionals particularly the investigative agencies and where physical or sexual abuse is suspected, a legal duty to report this. However, only those who need to know will be told.

10. RECORD KEEPING

All child protection records, information and confidential notes are kept in separate files in a locked drawer. These records are kept separate from any other file that is held on the child or young person.

If a complaint about possible child abuse is received by the school and is not referred to Social Services – or if it is referred and Social Services do not place the child’s name on the Child Protection Register – a record on the child’s file will be permanently preserved and a confidential copy will be sent to any school to which the child subsequently transfers.

If the Social Services inform the school that child’s name has been placed on the Child Protection Register, a record of this fact and associated documentation from the Social Services will be maintained on the child’s file while he or she continues to attend our school.

When the child’s name is removed from the child protection register then all Social Services records will be destroyed and only the school records retained for permanent preservation. Should a child transfer to another school whilst their name is on the child protection register then we will inform the receiving school that his/her name is on the register and the name of the child’s social worker. All Social Services records held by us in relation to the child will then be destroyed. The schools own child protection records in relation to the child will be held in secure and confidential storage for permanent preservation. Please refer to Appendices 5(a) and 5 (b) for recording pro-formas used to record concerns.

11. VETTING PROCEDURES

All staff paid or unpaid who are appointed to positions in the School are vetted in accordance with relevant legislation and Departmental guidance.

12. CODE OF CONDUCT FOR ALL STAFF PAID OR UNPAID

All actions concerning children and young people must uphold the best interests of the young person as a primary consideration. Staff must always be mindful of the fact that they hold a position of trust, and that their behaviour towards the child and young people in their charge must be above reproach. The school has a code of conduct for staff which is intended to assist staff in respect of the complex issue of child abuse, by drawing attention to the areas of risk for staff and by offering guidance on prudent conduct. It is not intended to detract from the enriching experiences children and young people gain from positive interaction with staff within the education sector.

The schools code of conduct is included as Appendix 6.

12. STAFF TRAINING

St Mary's is committed to in-service training for its entire staff. Each member of staff will receive general training on Policy and procedures with some members of staff receiving more specialist training in line with their roles and responsibilities. All staff will receive basic child protection awareness training and annual refresher training. The Principal/Designated Teacher; Deputy Designated teacher, Chair of the Board of Governors and Designated Governor for Child Protection will also attend relevant child protection training courses.

When new staff or volunteers start at the school they are briefed on the school Child Protection Policy and code of conduct and given a copy of the policy which includes what to do if you are worried that a child is being abused.

14. THE PREVENTATIVE CURRICULUM

In the classroom, regular Circle Time sessions are used as a means of encouraging children to raise social and emotional concerns in a safe environment and to build self confidence, respect and sensitivity among classmates.

Throughout the school year child protection issues are addressed through class assemblies and there is **a permanent child protection notice board in the main corridor and relevant information in each resource area**, which provides advice and displays child helpline numbers. A flow diagram of how a parent may make a complaint is also on display. An enlarged flow diagram for a teacher allegation IS in staff room.

Other initiatives which address child protection and safety issues:

- Barnardos regularly visits the school and provides information on a range of child protection issues through Assemblies, talks, role-plays, puppet shows and resources.
- Primary 1 to Primary 7 children participate in a community awareness programme run by the PSNI, the "CASE" programme

- Primary 5 pupils take part in the Northern Ireland Fire and Rescue Service talks on Fire Safety.
- Primary 3-7 pupils complete the Helping Hands Project.
- PDMU is taught weekly: this includes keeping safe strategies.
- Each year Primary 7 pupils participate in the “Bee Safe” Activity Day which is run jointly by health Promotion Agency and the Western health and Social Services Trust and involves all the emergency services.

15. MONITORING AND EVALUATION

St Mary's Primary School will update this Policy and procedures in the light of any further guidance and legislation as necessary and review it annually. The Board of Governors will also monitor child protection activity and the implementation of the child protection policy on a regular basis through the provision of reports from the Designated teacher.

On-going evaluation will ensure the effectiveness of the Policy.

CODE OF CONDUCT

Private Meetings with Pupils

- Staff should be aware of the dangers which may arise from private interviews with individual pupils. It is recognised that there will be occasions when confidential interviews must take place. As far as possible, staff should conduct such interviews in a room with visual access, or with the door open.
- Where such conditions cannot apply, staff are advised to ensure that another adult knows that the interview is taking place. It may be necessary to use a sign indicating that the room is in use, but is not advisable to use signs prohibiting entry to the room.
- Where possible another pupil or (preferably) another adult should be present or nearby during the interview, and the school should take active measures to facilitate this.

Physical Contact with Pupils

- As a general principle, staff are advised not to make unnecessary physical contact with their pupils.
- It is unrealistic and unnecessary, however, to suggest staff should touch pupils only in emergencies. In particular, a distressed child, especially a younger child, may need reassurance involving physical comforting, as a caring parent would provide. Staff should not feel inhibited from providing this.
- Staff should never touch a child who has clearly indicated that he/she is, or would be, uncomfortable with such contact, unless it is necessary to protect the child, others or property from harm.
- Physical punishment is illegal, as is any form of physical response to misbehaviour, unless it is by way of necessary restraint.
- Staff who have to administer first-aid to a pupil should ensure wherever possible that this is done in the presence of other children or another adult.
However, no member of staff should hesitate to provide first-aid in an emergency simply because another person is not present.
- Any physical contact which would be likely to be misinterpreted by the pupil, parent or other casual observer should be avoided.
- Following any incident where a member of staff feels that his/her actions have been, or may be, misconstrued, a written report of the incident should be submitted immediately to his/her line manager.
- Staff should be particularly careful when supervising pupils in a residential setting, or in approved out of schools activities, where more informal relationships tend to be usual and where staff may be in proximity to pupils in circumstances very different from the normal school/work environment.

Choice and Use of Teaching Materials

- Teachers should avoid teaching materials, the choice of which might be misinterpreted and reflect upon the motives for the choice.
- When using teaching materials of a sensitive nature a teacher should be aware of the danger that their application, either by pupils or by the teacher, might after the event be criticised. Schools have already received advice on the value of consulting parents and Governors when proposing to use materials such as the AIDS education for schools and in connection with sex education programmes.
- If in doubt about the appropriateness of a particular teaching material, the teacher should consult with the principal before using it.

Relationships and Attitudes

Within the Pastoral Care Policies of the school and the employing authority, staff should ensure that their relationships with pupils are appropriate to the age, maturity and sex of the pupils, taking care that their conduct does not give rise to comment or speculation. Attitudes, demeanour and language all require care and thought, particularly when staff are dealing with adolescent boys and girls.

Conclusion

It would be impossible and inappropriate to lay down hard and fast rules to cover all the circumstances in which staff interrelate with children and young people, or where opportunities for their conduct to be misconstrued might occur.

From time to time it will be prudent for all staff to reappraise their teaching styles, relationships with children/young people and their manner and approach to individual children/young children, to ensure that they give no grounds for doubt about their intentions, in the minds of colleagues, of children/young people or of their parents/guardians.
